Reno Knighton 11U boys platform, 1m and 3m

Alyssa Brion 14-15 girls platform

Aundrea Scott, Zak Rowton and Kathleen Feuerborn also competed and narrowly missed top 12.

This is our highest finish ever at the summer nationals. We are so proud of the efforts of these young athletes and we know that the two who will represent our country and our club in the Jr worlds will do great. The jr worlds are going to be in Tucson, AZ Sept 1-6. This is the first time in over 20 years that this event will be held in the United States. It will be great for these divers to have the crowd behind them during competition.

Bradley, Bryce, Callan, Alex, Roberto and Shannon will be going to college station to Texas A&M this next week, Aug 10-15 for the AT&T USA DIVING senior nationals. They had to qualify through one of four senior zone meets across the country and place in the top 5 spots. The Senior level is open to divers of all ages as long as they have dives of high enough degree of difficulty. Many current Olympians and top college divers will be participating in this event. This is the level of diving that determines our United States International divers including the Olympic team.
